GARV Techniques' mission is to provide a level of commitment to our customers beyond that found anywhere in our industry. Our level of commitment is demonstrated daily in our efforts to provide high quality services, tailored to the customer's wants, designed to meet their needs, and delivered to meet their schedule albeit adhering to all standards & specifications.

**“DYNAMIC AND RESPONSIVE” – that's GARV Techniques for you.**

GARV Techniques adheres to strict quality assurance program. We carry out our testing Equipment inspection on day to day basis combined with continuous in-process inspections (Replicate Testing) and final functionality tests ensure that our equipments meet all International & National standards. We have received a Certificate of Accreditation through NABL, a mark of distinction achieved only by a very few Non Destructive Testing Agencies in India.

We possess all requisite state -of-the-art equipment & machinery to efficiently conduct above range of services with least possible lead time. Our people have extensive laboratory as well as field testing expertise. You can be assured of expert guidance and technical support in structural assessment. Combined with an expert staff of engineers, trained representatives and technicians, our customer service team offers you extremely satisfying performance.

### ***Our Mission:***

To be committed to provide prompt & excellent service.

### ***Vision:***

To be full service providers for testing & analytical services  
To continuously observe the level of client satisfaction.  
To offer most technologically advanced portfolio of services in industry.  
To expand our client base in India & International market  
To be recognized as a great place to work & grow professionally

### ***Values:***

No compromise on safety and service.  
Upgrade Human Resource with Training and Development.  
Total transparency in all operations.
